BATHWARE

SWIRL-WAY

SWIRL-WAY® LUXURY SERIES ACRYLIC BATHWARE

Relax in a luxurious bath, rich with features and options perfectly designed to match your décor and budget.

Mansfield® handcrafted bathware is constructed with durable, high-gloss acrylic that is reinforced with fiberglass. We use the finest long-strand fibers with high quality resins that are hand-rolled for superior strength. Each product is water tested to ensure the high quality product you expect from Mansfield. All Mansfield Swirl-Way® bathware is made in the USA.

HANDCRAFTED PERFECTION

For the selective bather, we take luxurious bathing to a higher level with the Swirl-Way® Luxury Series. Custom-molded armrests and backrests cradle you for relaxing comfort. Take it up a notch with a hydromassage from one of our various jetted systems. For specific aches and pains, the whirlpool bath jets can be directed to massage a particular area. For a broader massage, an air massage bath creates huge therapeutic bubbles throughout the bathing well. Want both? Choose the combination and run each system independently or simultaneously. For gentle exfoliation, choose the MicroDerm™. Rest assured, Mansfield® has the right bath product for you.

Your Choice of Experiences

Whether you're looking for a simple soaking tub for a remodeling project or the ultimate in relaxation with our exclusive MicroDerm™ therapeutic system, we have you covered. We even offer baths with more than one experience, so you can bathe precisely the way you want.

CHOOSE FROM FIVE HYDROTHERAPY SYSTEMS COMBINATION WHIRLPOOL AND AIR MASSAGE BATH:

BATHTUB — Relax with a soothing soak in warm water.

WHIRLPOOL BATH — Focus relief to your aching muscles with fully adjustable body and back jets that allow you to control the direction and force of the water flow. Choose to build your own or select the feature rich Comfort Package.

AIR MASSAGE BATH — Aid relaxation and comfort with air jets that create huge air bubbles to help relieve aches in any part of your body.

COMBINATION WHIRLPOOL AND AIR MASSAGE BATH — Get the benefits of both therapies with a combination system that allows you to operate the whirlpool jets and air jets independently or together. The Combination Bath comes standard with the Comfort Package upgrades, except features a single speed induction pump.

MICRODERM™ THERAPEUTIC BATH — Combine the relaxing elements of bathing with therapeutic benefits that rejuvenate the skin. The MicroDerm™ system quietly immerses you in millions of oxygen-rich microbubbles that clean, exfoliate, soften and rejuvenate your skin, leaving it feeling relaxed and refreshed.

For more information and a full list of available features and options, see the Swirl-Way Features and Options Reference Chart on the next page as well as the Parts and Accessories section on page 93.

Your Choice of Features

Mansfield offers great features and options to fit your individual needs: the Hydro-V Backjet System, fully adjustable whirlpool jets, air injectors with check valves, inline heaters, low profile deck and induction pumps, chromatherapy light system and variable speed pump, just to name a few.

The Hydro-V™ Backjet System features six or eight jets strategically placed to provide the ultimate therapy for your back. Four to six jets target the shoulder blades, upper and middle back muscles while the bottom two jets give your lower back an invigorating wave of direct hydrotherapy. The volume of each jet is individually adjustable, allowing you to customize the massage to your preference by turning the jet ring clockwise or counter-clockwise to increase or decrease the amount of flow.

The Swirl-Way® body jet allows you to adjust both direction and flow of powerful, soothing water. Simply turn the jet ring clockwise or counter-clockwise to increase or decrease the amount of flow. You can even move the jet nozzle to pinpoint an area of your body designated for a custom massage.

All Mansfield® Swirl-Way® bathware products are manufactured in our Henderson, Texas plant.
