Consistent Availability on Quality Products

Mansfield Plumbing Products (MPP), founded in 1929 in Ohio, is a leading brand of top quality, high design, performance plumbing fixtures and fittings for use in residential, commercial and institutional markets. In 1995, MPP acquired Swirl-way acrylic products based in Henderson, Texas. In 2004, MPP was acquired by CORONA, the western hemisphere's largest manufacturer of ceramic sanitaryware, originally founded in Colombia, South America. Its corporate office and distribution center are located in Ashland, Ohio.

MPP manufactures sanitaryware utilizing highly automated production processes at facilities in Mexico, Central America and Colombia operated by our parent company Corona. A facility in Henderson, Texas, manufactures its acrylic bathware product line. To ensure the highest quality, stringent quality control standards and extensive testing are applied to every product made. Recognized for a strong commitment to service, quality and value, MPP is considered the "Brand of Choice" for professional plumbing contractors and consumers alike. The current line of products include: vitreous china toilets, lavatories and urinals; and acrylic freestanding baths, air-baths, whirlpools, bathtubs and shower bases.

Today, Mansfield is expanding its presence with continued growth in the wholesale, commercial, and retail markets. The company is well positioned for the future thanks to its strong reputation, consistent availability, and commitment to product development.
